

# Quality Policy

PIXART S.R.L., an Argentine company founded in 1999 and specialized in providing comprehensive solutions in engineering, development, updating, integration, and maintenance of IT systems, has defined its quality management policy by committing to:

- Meeting the expectations and/or requirements of our clients and other interested parties by designing, implementing, and managing solutions in an agile and flexible manner.
- Monitoring the risks associated with our quality management system and developing corresponding preventive and contingency measures, while permanently striving for the continuous improvement of our processes.
- Motivating and training personnel by fostering a sense of belonging, adopting the latest technological advancements, and promoting cooperation, commitment to quality, innovation, and creativity in an environment of teamwork, respect, and collaboration processes.
- Respecting commitments made, legal, regulatory, and corporate requirements, generating trust, security, and loyalty.

The Board of Directors of PIXART S.R.L. is ultimately responsible for the application of this policy within the company, committing to providing the necessary resources for staff to understand, share, and ensure its compliance.
